

C905

C905 Cyber-shot™

This is the world's first 8.1 megapixel Cyber-shot™ phone!

8.1 megapixel camera with Xenon flash

Take great pictures in low-light environments

Face detection, Auto focus & Smart contrast

Focuses on faces, automatically adjusts focus point, light balance and colour

Connect to TV via Wi-Fi™

Show off your photos on a television with DLNA support

Premium Active Lens Cover

Protect your lens and flash. Slide to activate the camera instantly

Geo-tagging with aGPS

Tags the location at which you took pictures

30 SECS

Sell it in 30 seconds

The C905 is as much a camera as a phone with powerful imaging capabilities. The 8.1 megapixel camera, Xenon flash, Face detection, Auto focus and Smart contrast will bring out the trigger-happy photographer in anyone.

60 SECS

Sell it in 60 seconds

8.1 megapixel with Xenon flash – Every shot is picture perfect with the high quality camera and Xenon flash that automatically detects low-light conditions

Premium Active Lens Cover – Protects your lens and flash. Simply slide to activate the camera mode

Face detection – Detects and focuses on faces so every expression is captured in perfect clarity

Auto focus – Automatically focuses on the centre of the frame so your photos turn out brilliant

Smart contrast – Adjusts light balance and colour before you take the picture, so what you see is what you get

BestPic™ – Takes nine consecutive shots with one click. Choose the one you love and bin the rest

Geo-tagging with aGPS – Tags the location at which you took pictures so you'll never forget

Wi-Fi™ – Surf, download files and even share photos with friends and family via the wireless connection

Sony Ericsson

C905

Compare it

Why it's so good	Features	Design
The C905 boasts powerful imaging capabilities with a host of camera-centric features. The 8.1 megapixel camera, Xenon flash, Face detection, Auto focus and Smart contrast ensure that every shot will turn out perfect.	8.1 megapixel camera with Xenon flash Premium Active Lens Cover Face detection, Auto focus & Smart contrast	Triband HSDPA Geo-tagging with aGPS Connect to TV via Wi-Fi™ 160MB phone memory

	Samsung Innov8	LG KC910
How they compare to C905	140g weight Shorter battery life No Xenon flash	70MB phone memory Shorter standby time No PictBridge
And, none of them have	8.0 megapixel camera, No BestPic™, No Photo fix, No Colour options, Dualband HSDPA	

Demonstrate it

Face detection, Smart contrast, BestPic™ and Photo fix

1. Slide open the Active Lens Cover to activate the camera mode.
2. Take a picture of someone and show how Face detection, Smart contrast and Photo fix can make a difference.
3. Aim the camera at a moving object and use BestPic™ to take a picture.
4. Show the customer how to select the best shot and delete the rest.

Geo-tagging with aGPS

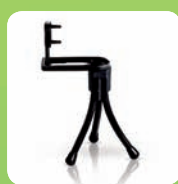

1. Activate the camera mode and select Option -> Setting -> Add location and turn it to 'On'. The phone will now automatically geo-tag locations.
2. Take a picture with the phone.
3. Tell the customer that with geotagging, the phone automatically combines picture location information from the aGPS system with camera images.
